Recognitions

To provide our customers with quality furniture featuring practical functionality without compromising the design and ergonomics yet keeping everything reasonably affordable.

Few words about us...

Kitchenation is a one stop modular furniture company providing the customers with fascinating designs and exemplify optimum utilization of available space.

The word 'modular' is derived from the word modules which are standardized and independent units that can be used to construct a more complex structure. These modules (commonly called cabinets) are the basic component of any modular furniture. These modules of different shapes and sizes; each having its specific position; combines together to form what we call as a modular kitchen / furniture. We, at Kitchenation, strongly believe in the concept and it is represented in our logo as well.

The orange rectangles represent the different spaces in your home, your life with all its vitality, excitement and warmth. Nestled in the south east corner is the rectangle in green , the colour of life, freshness and fertility . This represents your kitchen. According to vastu shastra, south east corner is the ideal location for kitchens. The typeface is in black, the colour of strength and solidity.

Kitchen is the heart and soul of any home and we assure its vital functionality. We, at Kitchenation; keep "the queen of the kitchen" in mind while designing any product and strictly follow the kitchen ergonomics. It is then implemented by our team of accomplished craftsmen. The raw materials used in the process come from a cluster of world renowned manufacturers.

Brand Story

Abbas Johar | Abizer Baroodwala Director and Co-founders

Having met at an IIT coaching center in Kota turned best buddies shared the common dream of being entrepreneurs. After graduating in the field of engineering from their respective streams Abbas started helping his dad in his business whereas Abizer took a job in a software company to taste the corporate world. But the thirst of entrepreneurship was not quenched; so one day they left the comforts of their homes and came to Indore. Having come from a background of property and construction in their parents business they knew the immediate need of any person after having their dream home was a kitchen and hence they went ahead to cofounding a company aimed to provide their customers with their dream kitchens.

Starting humble from a 500 sq. ft. kitchen display gallery to expanding the business multiple times in 5 years and experience of having more than **250 kitchens** installed across the state of Madhya Pradesh, Maharashtra and Rajasthan. They aim to set up Kitchenation as a well known brand with its stores across the country. Kitchenation's main ideology is to provide their clients with quality products and services in the utmost professional manner and hence our customer say "Happiness Installed professionally"

How we do!!

At our first meeting at your home, we assign you designer. Your personal designer will discuss with your exact kitchen requirements and suggests what type of kitchen best suits your home. He then takes accurate measurements, precise in millimeters; accordingly.

We are sure that nobody understands kitchens and customers as we do. Your taste, your desire, your interest, the room you have and your wallet play important role in the design and planning process. Our designers keep them all in mind while designing your kitchen.

After you finalize and approve our plans and designs, we put them into implementation. We join all the pieces together and deliver it at your doorstep. We understand the importance of your time and make sure that you do not have to wait for the experience.

We believe in speedy and perfect installation. Therefore we provide a team of installation experts who are headed by your designer and ensure that installation run smoothly.
